DEANERY C OF E PRIMARY SCHOOL

SPRING TERM 2023

We are delighted to announce that Code Camp will be offering an exciting after school coding club at Deanery CofE Primary School next term.

Whether coding is new, or an identified passion, Code Camp will let your child unleash their creativity in a fun, collaborative and supportive environment. All attendees will build their own apps, learn foundational coding principles and have ongoing access to the Code Camp World platform to keep coding long after the course has concluded.

Code Camp is now a global movement, having taught over 120,000 children how to code in the past 9 years. We focus on problem-solving, creating apps and improving computational thinking in a fun and engaging way, so your child will be ready to take on the digital world of the future.

Key details:

CODECAMP

After-school has never been so much fun!

At our popular after-school coding sessions you will design games, jam-packed with awesome features including, zombies, invisibility cloaks, and so much more. And then the real fun begins, as we use coding and logic, from drag and drop to JavaScript, to connect all the elements and bring the games to life!
